

**Functional Inflammolgy (.com): Definition and Scope:** An evidence-based clinical approach to the prevention, management, comanagement, and cure of the majority of so-called "chronic diseases" that are increasingly in epidemic proportions worldwide; examples include diabetes, hypertension, obesity, migraine, neurodegeneration, fibromyalgia, and disorders of allergic and autoimmune inflammation. **Safety, Efficacy, Ethics:** Remarkable safety and efficacy; allows clinicians to meet all criteria of medical ethics: - beneficence, + nonmaleficence, + autonomy, - informed consent, ¶ distributive justice. **Refutations/Affirmations:** The "chronic disease model" is refuted in place of the view that **most so-called "chronic diseases" are simply "sustained responses"** to factors which can be clinically corrected; these seven primary factors are effectively addressed by the Functional Inflammolgy Clinical Protocol.

**Functional Inflammolgy: Introduction to Clinical Nutrition, Functional Medicine, and Integrative Pain Management** is the culmination of several thousand research publications combined with Dr Vasquez's many years of clinical experience and teaching graduate-level students and doctorate-level clinicians worldwide. With the photos, diagrams, acronyms, illustrations and explanations, Dr Vasquez makes it easier than ever for clinicians to grasp important concepts and then apply the basic science research and molecular biology in to treatment plans that can be explained and applied in "the real world" of clinical practice with patients. The associated video tutorials and recorded live conference presentations further help students and clinicians "get it" via Dr Vasquez's teaching style which embraces complexity while always emphasizing clinical applicability and psychosocial context. The **Inflammation Mastery & Functional Inflammolgy series of books and videos** translates important concepts and nutritional/biomedical science into easy and practical clinical applications for the prevention and treatment of disorders of sustained inflammation, which Dr Vasquez describes as "patterns of metabolic disturbance and inflammatory dysfunction" existing in three sequential and overlapping categories: 1) metabolic inflammation, 2) allergic inflammation, 3) autoimmune inflammation. This book includes access to video presentations which introduce the origin and components of the Functional Inflammolgy Protocol and FINDSEX® acronym. Post-publication updates to this information and important social and clinical contextualization are contained in the accompanying videos—hyperlinks and passwords are provided via websites and newsletters as described within the textbook. This textbook also provides access to full-text articles—an example of which is Dr Vasquez's recent paradigm-shifting editorial published in the journal *Alternative Therapies in Health and Medicine* (2014 Jan). The updated section on pain management allows students and clinicians to understand and apply manual, pharmacologic, nutritional and botanical medicine treatments for musculoskeletal pain, thereby providing better relief for patients and avoiding the hazards of NSAIDs, coxibs, steroids, immunosuppressants/immunoparalytatics and biologics. Written with a modicum of style and humor, the paradigm-shifting revelations and plethora of clinical pearls are punctuated by biochemical insights and inconvenient political-environmental truths. In sum, Dr Vasquez's latest literary laxative disimpacts the dogma, shibboleths, and intellectual inertia that have held clinical medicine in a state of pathocentric pharmacodependent constipation for far too long; authentic long-awaited relief is now available for thousands of doctors and millions of patients.

**About the International College of Human Nutrition and Functional Medicine (ICHNFM):** International College of Human Nutrition and Functional Medicine was founded by a group of internationally-located world-class experts to provide higher-level training in nutrition and functional medicine to students and clinicians worldwide in Spanish, English, Portuguese, Catalan, and other languages. Originally founded in North America (Portland Oregon USA) and launched with the tremendously successful 2013 International Conference on Human Nutrition and Functional Medicine (described at [ICHNFM.org](http://ICHNFM.org) with select videos available at [Vimeo.com/ICHNFM](http://Vimeo.com/ICHNFM)), the organization is also now established in Europe (Spain) with an additional office in South America (Colombia). Dr Vasquez and his colleagues at ICHNFM provide educational courses, videos, written materials, and mentoring for students and clinicians to promote the expert-level application of clinical nutrition and functional medicine. Via forums ([NutritionAndFunctionalMedicine.org/edu](http://NutritionAndFunctionalMedicine.org/edu)) and live interactive online classes, professors and students are able to interact, network, and share important insights, clinical experiences and case reports, effective doses of nutrients and prescription medicines, additional citations to research, important clinical pearls, and expanded discussions on various topics as the research and clinical practice of human nutrition and functional medicine continuously advance. International College of Human Nutrition and Functional Medicine®, *International Journal of Human Nutrition and Functional Medicine*®, ([IntJHumNutrFunctMed.org](http://IntJHumNutrFunctMed.org)), and International Conference on Human Nutrition and Functional Medicine® are all registered trademarks™ legally held and internationally protected by the International College of Human Nutrition and Functional Medicine, based in North America (United States) and Europe (Spain).
